

Following the latest Government restrictions our showrooms are now closed. Our Sales Team will continue to be available by telephone and our website enquiry forms, we will continue to offer click and collect or delivery services for our new and used vehicles.

Our Service and parts departments will remain open and as always are adhering safe working practices.

Beechdale would like to thank our customers and colleagues for their continued support this year and wish you all a very happy new year.

Opening hours-

**Service and Parts**

**Service and reception information**

Face masks are mandatory for customers and staff in all areas. Upon arrival please apply disinfectant gel upon entering and maintain a two-metre gap between you and other customers.

The waiting area is operational, but we do advise if possible, you do not wait while your work is in process.

As you would expect, we've increased the frequency that our dealerships are cleaned and disinfected. We're also ensuring that all common touch points are regularly cleaned.

Bookings are staggered to limit the number of people on site at one time so please ensure you arrive at your allocated time.

For safety reasons we are unable to offer the following services

- Courtesy vacuum.
- Refreshments/drinks

Workshop Process –

The technician working on your vehicle always has a mask present and a new set of disposable gloves per job. Covers are used on the seats, steering wheel and gear stick. These are removed and all touch points disinfected when the vehicle is returned to the reception area.

**Showrooms**

These are closed until further notice; sales executives are available as per the times at the top of the page.

**Click and Collect**

We have a specialised handover area that allows us to offer a click and collect service with full social distancing in place. Ahead of your visit, your vehicle will have been fully valeted and sanitised ready for collection.

Documents and keys are sealed. Full details will be provided by your sales executive.

Best Wishes

Russell Boot  
General Manager
